Office Action Summary

Art Unit:

Claims 1-21 are presented for examination.

His response to the office action of February 1, 1999 has been received and entered.

Claims 1-21 are again rejected under 35 U.S.C. 103 as being unpatentable over Schneider. For the reasons set forth on page 2 of the office action of February 4, 1999.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality to the trans configuration of the prior art compounds in comparison to the cis compounds of the instant application. Applicant is reminded that cis and trans of a compound usually share the same type of activity with the different degrees of potency. The fact that they show their activities with different mechanism does not create a patentably distinct use. Applicant has presented no evidence to the advantages of the claimed cis compounds over the trans used by the prior art in treating macular edema. Therefore the prior rejection sustains.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit:

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
